	Done	Days	Sections	Job Readiness Outcome	Skills Gained
<b>PHASE 1: BACKEND FUNDAMENTALS (Days 1-12)</b>	<input type="checkbox"/>	DAY 1 - DAY 2	Introduction and Setup	Junior Backend Developer (Basic Spring Boot)	Development environment, Internet fundamentals, Dependency Injection, Spring Core concepts, REST API development, Spring Boot basics, Database concepts
	<input type="checkbox"/>		Basics of Web Development and Internet   Pre Spring Boot		
	<input type="checkbox"/>	DAY 3 - DAY 5	Spring Framework - The Basics   Before Spring Boot		
	<input type="checkbox"/>		Spring Framework: Working with Spring Annotations		
	<input type="checkbox"/>	DAY 6 - DAY 8	Spring Boot 101: Building Our First REST API		
	<input type="checkbox"/>	DAY 9 - DAY 12	Getting Started With Ecommerce Application   Building Category Module Fundamentals of Databases and Persistence		
<b>PHASE 2: DATABASE &amp; PERSISTENCE (Days 13-18)</b>	<input type="checkbox"/>	DAY 13 - DAY 15	Getting Started with JPA   Jakarta Persistence API	Mid-Level Backend Developer (Security + Complex features)	ORM concepts, Code optimization, Data validation, Performance optimization, Complex data modeling, Business logic, Enterprise security, Authentication/Authorization
	<input type="checkbox"/>		Reduce Boilerplate Code: Introducing Lombok		
	<input type="checkbox"/>	DAY 16 - DAY 18	Validations in Spring Boot API   Backend Validations		
	<input type="checkbox"/>		Implementing Pagination and Sorting in Our Ecommerce Project		
<b>PHASE 3: ADVANCED BACKEND (Days 19-25)</b>	<input type="checkbox"/>	DAY 19 - DAY 21	Working with Multiple Entities and Relationships With JPA		
	<input type="checkbox"/>		Managing Products in Our Ecommerce Application		
	<input type="checkbox"/>	DAY 22 - DAY 25	Spring Security   Securing Our Spring Boot Application		
	<input type="checkbox"/>		Managing User Profiles and Roles   User Management For Spring Security Implementing Our Own Custom Authentication in E-commerce App		
<b>PHASE 4: E-COMMERCE BACKEND (Days 26-30)</b>	<input type="checkbox"/>	DAY 26 - DAY 28	Implementing Shopping Cart in Ecommerce Application	Senior Backend Developer (Complete backend skills)	Complex business logic, Multi-database support, Payment processing, Cloud deployment, API documentation, Interview preparation
	<input type="checkbox"/>		Different Databases - PostgreSQL and MySQL		
	<input type="checkbox"/>	DAY 29 - DAY 30	Manage User Address to Ship Orders		
	<input type="checkbox"/>		Orders and Payments in Our Ecommerce Application		
<b>PHASE 5: BACKEND COMPLETION (Days 31-32)</b>	<input type="checkbox"/>	DAY 31 - DAY 32	Deploying on AWS   Deploy Spring Boot Application on AWS		
	<input type="checkbox"/>		API Documentation with Swagger and Spring Boot Prove Your Backend Skills   Backend Interview Simulation		
<b>PHASE 6: REACT FUNDAMENTALS (Days 33-40)</b>	<input type="checkbox"/>	DAY 33 - DAY 35	Don't Skip   Becoming a Spring Boot Full Stack Java Developer   A Note	Junior Full-Stack Developer (React basics)	React fundamentals, Component architecture, Advanced React concepts, State management
	<input type="checkbox"/>		[REACT BEGINNER] Introduction to React		
	<input type="checkbox"/>		[REACT BEGINNER] Getting Started with JSX		
	<input type="checkbox"/>		[REACT BEGINNER] Components and Props in React		
	<input type="checkbox"/>	DAY 36 - DAY 40	[REACT INTERMEDIATE] Introduction to React Hooks		
	<input type="checkbox"/>		[REACT INTERMEDIATE] Introduction to useEffect Hook		
	<input type="checkbox"/>		[REACT INTERMEDIATE] Introduction to useRef Hook [REACT INTERMEDIATE] Introduction to useContext Hook		
<b>PHASE 7: ADVANCED REACT (Days 41-48)</b>	<input type="checkbox"/>	DAY 41 - DAY 44	[REACT ADVANCE] Custom Hooks in React	Mid-Level Full-Stack Developer (Advanced React)	Custom hooks, API integration, Styling, Navigation, Global state management
	<input type="checkbox"/>		[REACT ADVANCE] APIs and React		
	<input type="checkbox"/>		[REACT ADVANCE] React Hook Forms		
	<input type="checkbox"/>		[REACT ADVANCE] React with Tailwind CSS		
	<input type="checkbox"/>	DAY 45 - DAY 48	[REACT ADVANCE] Routing with React		
	<input type="checkbox"/>		[REACT ADVANCE] React Router Hooks to Know		
	<input type="checkbox"/>		[REACT ADVANCE] Redux

PHASE 8: FULL-STACK INTEGRATION (Days 49-65)	<input type="checkbox"/>	DAY 49 - DAY 55	Setting up Project & Building Home Page	Senior Full-Stack Developer (Complete e-commerce)	Implementing things learned into a project, Understand how things work in project, Payment processing, Authentication flow
	<input type="checkbox"/>		Building Product StoreFront		
	<input type="checkbox"/>		Building HomePage and Navigation		
	<input type="checkbox"/>		Building Advance Shopping Cart Using React + Redux		
	<input type="checkbox"/>	DAY 56 - DAY 65	Authenticating Users On Frontend Using React		
	<input type="checkbox"/>		Checkout Flow On Frontend Using React		
	<input type="checkbox"/>		Payment [Stripe] Integration On Frontend Using React		
PHASE 9: ADMIN & SELLER PANELS (Days 66-69)	<input type="checkbox"/>	DAY 66 - DAY 69	Building a Full-Stack Admin Panel with Role-Based Authorization	Enterprise Full-Stack Developer (AI + Modern deployment)	Role-based access, Admin interfaces, AI integration, Modern deployment
	<input type="checkbox"/>		Building a Full-Stack Seller Panel with Role-Based Authorization		
PHASE 10: AI INTEGRATION & DEPLOYMENT (Days 70-72)	<input type="checkbox"/>	DAY 70 - DAY 72	Welcome to the World of AI   Building Applications using Spring AI		
	<input type="checkbox"/>		Welcome to the World of AI   Building Audio Transcriber   Spring AI		
	<input type="checkbox"/>		TIPS: Deploying Full Stack Applications for FREE
